

**Fact Sheet
July 2002**

No Further Action Required at the Campbell Soup Company Site

SACRAMENTO, CALIFORNIA

*DTSC is one of six
Boards and
Departments within
the California
Environmental
Protection Agency.
The Department's
mission is to restore,
protect and enhance
the environment,
to ensure public health,
environmental
quality and
economic vitality,
by regulating
hazardous waste,
conducting and
overseeing
cleanups, and
developing
and promoting
pollution prevention.*

State of California

Protection Agency**

In June 2002, The Department of Toxic Substances Control (DTSC) determined that no significant soil contamination exists at the Campbell Soup Company site (Site), therefore, no further remedial action is required.

The 120-acre Site, which is located at 6200 Franklin Boulevard, Sacramento, California, has been used since 1947 for the manufacturing of canned soups, sauces, and juices. DTSC conducted an environmental assessment of the Site and determined that 0.45-acres needed further investigation. In January 2001, the Campbell Soup Company and DTSC entered into a Corrective Action Consent Agreement to conduct an investigation of the 0.45 acres. The investigation determined that low levels of benzene, toluene, and m, p-xylenes (BTEX compounds) were present in the soil. BTEX compounds are suspected or known cancer causing agents.

In February 2002, DTSC requested that additional soil and soil gas data be collected and analyzed to ensure that benzene levels are at a level which is protective of human health. The additional sampling activities were conducted from March through April 2002 in accordance with a DTSC approved workplan. The findings of the additional sampling were submitted to DTSC in a Supplemental Resource Conservation and Recovery Act Investigation report (RFI) in mid-April 2002.

After extensive review of the Supplemental RFI report, DTSC determined that no significant soil contamination exists at the 0.45 acre Site, and that the Campbell Soup Company has fulfilled all of the obligations outlined in the Corrective Action Consent Agreement.

Copies of the Corrective Action Consent Agreement, the RFI, and other documents pertaining to this project are available for public review in the DTSC administrative record. Please contact Alberta McMurray at the DTSC library at (916) 255-3758 for more information.

Questions or concerns regarding the Campbell Soup Company site should be directed to Harry Sneh, DTSC Project Manager at (916) 255-3740.

Representatives from the media should contract Ron Baker, DTSC Public Information Officer at (916) 324-3142.

Notice To The Hearing Impaired

TDD users should contact the California State Relay Service at 1-888-877-5378 and request to be placed in contact with Harry Sneh at (916) 255-3740.

Mailing List Coupon

If you have any comments concerning the Tosco Site or if you would like to be put on the Site specific mailing list, please take a moment to fill out the information below and mail it to Randy Sturgeon, DTSC, 8800 Cal Center Drive, Sacramento, California, 95826-3200. DTSC mailings lists are solely for the purpose of keeping persons informed of DTSC activities. Mailing lists are not routinely released to outside parties. However, they are considered public records, and, if requested, may be subject to release.
